Forcing floor pavement open

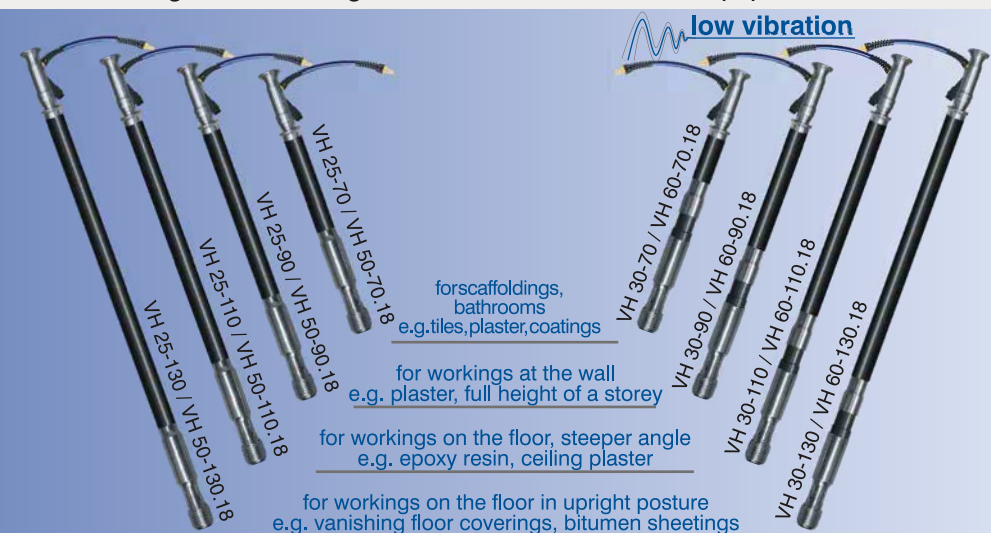

VOGT Hammer - powerful and multifunctional

VOGT[®]
WorkTec

CE

The advantages:

- ✓ Easy and fatigueless operation thanks to low weight
- ✓ High performance per squaremeter due to high power of impact
- ✓ Enables working on the full height of a storey without stretching nor bending
- ✓ Ergonomic posture by fitting hammer length
- ✓ Large choice of tools and fast tool change
- ✓ Various application
- ✓ Low air consumption enables use of mobile 230 V compressors
- ✓ 2 years warranty on equipment and tools

VH 25 / VH 30 - the light one

- Striking off gypsum, lime, and lime-cement plaster, fineplaster
- Taking off glued tiles
- Removing filling compounds
- Roughening concrete and sandstone
- Cleaning of flat formwork
- Getting off formwork joints, rests of mortar, sprayed asbestos
- Opening PCB- and brickwork joints

VH 50.18/VH 60.18 - the powerful one

- Removing all kinds of floor coverings (PVC, carpets, parquet, linoleum...)
- Striking off cement plaster
- Breaking tiles in mortar bedding
- Removing bitumen sheeting
- Demolition workings, breakthroughs
- Digging in solid soil (underpinnings, house service connections...)
- Compacting concrete and clay

Technische Daten

Technische Daten						
low vibration	VOGT Hammer VH 25	Model	25-70	25-90	25-110	25-130
	Operating pressure 3,0 - 6,0 bar	Total Length	70 cm	90 cm	110 cm	130 cm
	Percussion rate 3200/min					
	Air consumption 190 l/min / 6,0 bar	Weight	3,2 kg	3,5 kg	3,8 kg	4,1 kg
	VOGT Hammer VH 30	Model	30-70	30-90	30-110	30-130
	Operating pressure 3,0 - 6,0 bar	Total Length	70 cm	90 cm	110 cm	130 cm
